Cadaver Rack Assembly Instructions

Stand unit vertically and remove security strap.

Remove side pin.

Extend one end of rack completely.

Insert locking pin into top support.

Insert locking pin into side support arm. Repeat steps 2-5 for the other half of rack. Make sure that all pins are secured.

Remove security straps from roller sets.

Insert short rollers on bottom tier.

Insert long rollers on remaining tiers. Lightly tap rollers into position.

Step Nine

Make sure that the stops are all located on the same end. Rack is assembled and ready for use.

^{*}Patent Pending.
